08 - 2020	revit Arab International University (AIU)

Work Experience

12 - 2021 Until now	Interior design at MOSTAQEL
	I worked as a freelance architect and tried to diversify the nature of the projects I worked on to gain the most experience. I worked on architectural studies for investment projects in Saudi Arabia. I worked as an interior architect for numerous villas and apartments in various regions. I worked on diverse and distinctive projects as a designer (exhibition booths, greenhouses, simple architectural elements). I also participated in architectural competitions, such as the Dubai Future Home Design and the Dubai Urban Elements Design competition.

10 - 2025
Until now

Architectural Design Manager at Abu ZERAA Trade & Contracting Co

Led the end-to-end architectural design process: Developed comprehensive interior and exterior designs for various residential and commercial buildings from concept to final execution. Managed governmental approvals and permits: Successfully navigated regulatory frameworks to secure building permits and technical clearances from the Damascus Governorate and local municipalities, ensuring zero delays in project timelines. Produced advanced technical documentation: Created detailed floor plans, elevations, and high-quality 3D visualizations using AutoCAD, Revit, 3ds Max, and Corona. Bridged design and construction phases: Coordinated closely with site engineers and contractors to oversee design implementation, resolve on-site technical clashes, and ensure strict compliance with local building codes. Optimized project workflows: Acted as the primary focal point between the design office and governmental authorities, streamlining paperwork and legal procedures to accelerate the project lifecycle.

09 - 2023
11 - 2024

Founder of an architectural office at BN STUDIO

I opened my own office and started working on larger projects that required a larger team to improve the quality of my work and speed up the project implementation process.

03 - 2021
12 - 2021

Trainee Engineer at puzzle studio

I worked as an intern during my college years. I worked as a furniture designer, interior designer, and exterior designer.
