ABOUT ME

A field engineer with 5 years of experience in infrastructure and site development, skilled in adapting engineering solutions to complex, resource-limited environments. I have a creative approach to designing practical, context-sensitive structures and improving existing facilities to meet humanitarian needs. I have advanced experience using modern engineering and planning tools. Passionate about my work, I continuously seek to learn and grow professionally. I strive to achieve the optimal balance between functionality, safety, and cost-efficiency, while applying sustainability principles to minimize environmental impact and maximize long-term benefit for affected communities. I am also experienced in administrative responsibilities including project documentation, procurement planning, team coordination, compliance with donor regulations, and regular reporting to NGO management.

EDUCATION

Bachelor's Degree in Architecture

08/08/2025

ITTIHAD PRIVATE UNIVERSITY

JOB EXPERIENCES

Architecture Designer & Site Engineer

2021 – 2023

COBALT DESIGN STUDIO

- Preparing technical drawings and architectural designs using engineering design software such as AutoCAD, Revit, and 3ds Max.
- Providing creative and sustainable solutions to improve the efficiency of architectural spaces.
- Preparing working drawings for technicians and various workshops.
- Collaborating with multidisciplinary teams to enhance the design of architectural projects.
- Managing and coordinating the various phases of a project, from concept to execution.
- Communicating with clients to accurately define their architectural requirements and needs.
- Supervising the execution of work on-site and ensuring compliance with technical specifications.

Senior Designer / Design Team Leader

2024 – 2024

FLAIR DESIGN STUDIO

- Monitoring the design team throughout the project phases.
- Preparing working drawings for technicians and various workshops.
- Providing creative and sustainable solutions to enhance the efficiency of architectural spaces.
- Overseeing project management and coordinating with site engineers.
- Managing the various project phases from concept to execution.
- Defining and monitoring progress and coordinating to track timelines.

WORK EXPERIENCES

Architecture Design Trainer

2023 – 2026

PRIVATE TRAINING CENTER (FREELANCER)

- Conducting training courses to enhance the skills of those working in architectural design.
- Providing technical consultations to students and recent engineering graduates on the use of engineering software.
- Guiding and training engineering teams on the use of engineering software such as AutoCAD, Revit, and 3ds Max.
- Conducting training workshops for engineering students on the effective use of engineering software through real-world projects.

PRIVATE DESIGN STUDIO (FREELANCER)

- Communicating with clients to accurately define their architectural requirements and needs.
- Providing creative and sustainable solutions to improve the efficiency of architectural spaces.
- Preparing technical drawings and architectural designs using engineering design software such as AutoCAD, Revit, and 3ds Max.
- Preparing shop drawings for technicians and various workshops.
- Supervising the execution of work on-site and ensuring compliance with technical specifications.

SKILLS

Architect Design Programs

- AutoCAD
- 3dsMax
- Revit

Architect Render Programs

- Vray
- Corona
- Lumion

Other Design Programs

- Photoshop
- illustrator

PM Programs

Primavera

Microsoft Office Programs

- Word
- Excel
- Power point

LANGUAGES

French	● ● ● ● ●		

PERSONAL SKILLS

- Creativity and innovative engineering solutions
- Ability to work efficiently both independently and as part of a team
- Effective communication with workers, engineers, and management
- Adherence to deadlines
- Familiarity with safety regulations
- Preparing accurate and clear engineering drawings
- Leadership and management skills
- Effective time management skills
- A willingness to learn

HOBBIES

Drawing | Reading Books | Swimming | Listening to music | Watching Movies |
Photo Shooting | Travelling | Sight seeing
