ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

RECOMMENDATIONS

Arwa Sharaf AlDein Professor

I take pleasure in recommending Maitham Aballatif for admission in your prestigious university. I was Maitham's supervisor in the fifth year, during this year Maitham proved the ability to solve the problems with a convenient, scientific, and independent way. He showed great enthusiasm to learn and capability to develop his own knowledge and skills.

In his Project "The rehabilitation of the industrial area in Damascus" he showed a remarkable solution attached to the Real situation in urban designing to the studied area, which ends with a good estimate to his work. During that period, our discussions and meetings were always productive and enlightening. There was always a progress, he never backed away from obstacles and had practical convenient solution when encountering problems. he showed to have a deep understanding of culture to the surrounded area and always remained open-minded with a strong personality. Finally, he achieved the project goal by blending values on both urban and architectural levels and by an investment, educational, and productive building.

In brief, Maitham is a highly motivated student with an intellect and a background that have prepared his ability for the challenges of pursuing his goals, and strongly I recommend him to get your scholarship without reservations.

Mahmoud Khalifeh CEO

My name is Mahmood khalifeh the founder of khalifah group, I'm writing to offer my big recommendations to Mr. Maitham abdallatif for the position of head of design department at our company. During my relationship with him over the past year, I have discovered a personality with a high sense of leadership and wisdom, he has demonstrated stupendous skills in designing and creating solutions in all the procedures at our company from designing to supervising on the crew to having bold decisions. Furthermore, he has created abundant designs in which they promote us (as a company) to vie the others vehemently and robustly. One of the chief reasons I believe that Maitham is a good asset is his ability to adapt quickly and expeditiously at any new place, he has taken only 3 months at our company to analyze the market and produce competitive products, he not counterintuitively but rather intrinsically has this kind of pure and clean mentality to be a big treasure at any place and to prove himself neatly. I'm really delightful to write this recommendation out of his contributions to our company and very confident that he has the ample intelligence, work ethics, analytical mind, and tremendous concepts to add them to any place or company

VOLUNTEERING

03/01/2022 – 30/06/2023 damascus

volunteer

intensive preparation for measures and individual care for children, the elderly, and displaced people, including taking simple health measures and organizing recreational activities for the entire group. The focus was on organizing these measures, especially in cooperation with other institutions in the field of assistance to the displaced and assisting in the preparation and setup of the organized computer networks.
