About me:

" A motivated and detail-oriented fresh graduate architect with a solid foundation in architectural design and a passion for creating innovative and sustainable spaces. Proficient in using key design software and skilled in translating ideas into functional and aesthetically pleasing environments. Eager to apply academic knowledge and creativity in a dynamic architectural firm, while continuously learning and contributing to the development of impactful projects. Ready to collaborate with teams and clients to bring visionary concepts to reality. "

Education:

Bachelor of Architectural Engineering

Antioch Syrian university (July 2024)

Work Experience:

•Internship at AlRounq for Creative Engineering | JAN-2025

- Proficient use of technical engineering software effectively.
- Precision in architectural presentation and visual output.
- Ability to achieve the required spatial layouts and clearly define their functions.
- Full commitment to attendance and discipline in daily tasks.
- Excellence in effective communication and teamwork.
- High flexibility in receiving and implementing directions and feedback positively.

•Graphic designer | Freelancer | 2022-2025

- Designed brand identities, logos, social media designs and business collateral.
- Produced effective advertising designs for various media, including print and digital.
- Interacted with clients to understand their needs and guided them towards optimal design solutions.
- Met project deadlines within predefined monthly plans.
