SUMMARY

Detail-oriented Architect with experience in designing innovative and sustainable structures across various sectors. Proficient in utilizing advanced architectural software to create comprehensive design plans and 3D models. Skilled in collaborating with multidisciplinary teams, clients, and stakeholders to translate vision into functional and aesthetically pleasing designs while adhering to local building codes and regulations. Adept at conducting site analysis, feasibility studies, and presenting design concepts to clients with clarity and professionalism. Possessing excellent communication and problem-solving skills, with a passion for creating spaces that enhance the quality of life for users.

WORK EXPERIENCE

2021 – Present Architect

Freelance, Damascus, Syria

- **Design Development:** Creating innovative architectural designs that meet client requirements, project specifications, and budget constraints
- **Exterior Design:** Developing innovative exterior design concepts that enhance building aesthetics while considering functionality and environmental impact, creating detailed architectural drawings, renderings, and specifications for exterior elements
- **Interior Design:** Designing functional and aesthetically pleasing interior spaces that meet client needs and preferences, preparing detailed floor plans, elevations, and 3D renderings for interior layouts, including furniture arrangements, color schemes, and materials selection
- **Drafting and Documentation:** Preparing detailed architectural drawings, renderings, and specifications using industry-standard software
- **Client Consultation:** Collaborating with clients to understand their needs, preferences, and vision for each project, providing expert advice on design options and materials

2023 – Present Designer Spacetoon Company,

Damascus, Syria

- **Concept Development:** Generating innovative design concepts for exhibitions and festivals that reflect the company's brand identity and resonate with diverse audiences
- **Design Execution:** Creating detailed design plans, including layouts, 3D models, and visual presentations for exhibitions and festival installations
- **Collaboration:** Working closely with marketing, production, and event management teams to ensure cohesive execution of design concepts across all platforms

2022 – 2023 Architect

Damas Real Estate, Damascus, Syria

- **Project Management:** Oversaw architectural projects from initial concept through completion, coordinating with engineers, contractors, and other professionals to ensure timely and successful delivery

- **Regulatory Compliance:** Ensured all designs comply with building codes, zoning laws, and other regulations, as well as industry standards for safety and sustainability
- **Technical Documentation:** Prepared detailed drawings, specifications, and documentation for construction, ensuring accuracy and clarity for all stakeholders

2021 – 2022 Architect Supervisor First

EFM LTD, Damascus, Syria

- **Project Oversight:** Supervised all phases of building projects, ensuring that architectural designs are implemented correctly and in accordance with project specifications
- **Collaboration:** Worked closely with project managers, engineers, contractors, and other stakeholders to coordinate efforts and resolve any issues that arise during construction
- **Quality Assurance:** Conducted regular site visits to monitor progress, assess quality of work, and ensured compliance with design specifications, safety regulations, and building codes

2019 – 2021 Trainer

Freelance, Damascus, Syria

- **Conduct Training Sessions:** Delivered engaging training sessions of Photoshop and Autodesk Revit for endusers, focusing on software functionality, best practices, and troubleshooting techniques
- **Needs Assessment:** Assessed training needs through surveys, interviews, and feedback from users to identify areas for improvement and tailor training programs accordingly
- **User Support:** Provided ongoing support and guidance to users post-training, addressed any questions or challenges they may encounter while using the software

EDUCATION AND TRAINING

2016 – 2021 Bachelor's Degree in Architecture Engineering

Damascus University, Syria
